**Date:** July 10, 2007

**To:** Honorable Chairman Bruno A. Barreiro  
and Members, Board of County Commissioners

**From:** George M. R. [Signature]  
County Manager

Agenda Item No. 8(P)(1)(F)

**Subject:** Joint Participation Agreement (JPA) between Miami-Dade County and Miami Shores Village to Provide \$1,500,000 in Village Funding for Village Participation in the Construction of Project Enhancements along NE 2 Avenue from NE 91 Street to NE 105 Street

## **RECOMMENDATION**

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of a Joint Participation Agreement (JPA) between Miami-Dade County and Miami Shores Village for Village participation in the construction of enhanced roadway improvements in a road improvement project along NE 2 Avenue from NE 91 Street to NE 105 Street.

## **SCOPE**

The Village has requested that the County's roadway project include enhanced roadway improvements as detailed below. The project is entirely located within Miami Shores Village, in Commission District 3.

## **FISCAL IMPACT/FUNDING SOURCE**

The Village will provide \$1,500,000 in funding for the construction of the enhanced improvements. The County's share of project costs is available from funds allocated in Road Impact (RIF) District 2.

## **TRACK RECORD/MONITOR**

The project will be assigned to Octavio Marin, P.E., Chief, Construction Division, who will oversee inspections conducted by Public Works Department (PWD) staff.

## **BACKGROUND**

The PWD has a pending roadway construction project that will provide improvements along NE 2 Avenue, from NE 91 Street to NE 105 Street. The project consists of roadway reconstruction with drainage modifications, curb and gutters, resurfacing, pavement markings, signage, sidewalks, signalization, street lighting, and landscaping, and is anticipated to begin in December 2007.

Miami Shores Village has requested streetscape project element enhancements and will provide funding for the difference between them and the cost of standard project elements normally found in the reconstruction of a County roadway. These elements include decorative street lighting, banner arms on poles, wider sidewalks with decorative coloring, concrete pavers on sidewalks, crosswalks and header curbs for crosswalks, benches, trash receptacles, enhanced landscaping, and an irrigation system.

The Village will provide the cost differential for the streetscape elements, estimated at \$1,500,000, between the standard and enhanced improvements. In addition, the Village has agreed to accept maintenance responsibilities for certain enhanced project elements.

**NE 2 AVENUE IMPROVEMENTS  
JOINT PARTICIPATION AGREEMENT**

This AGREEMENT, made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2007, by and between MIAMI SHORES VILLAGE, a municipal corporation of the STATE OF FLORIDA, hereinafter referred to as the "Village", and MIAMI-DADE COUNTY, a political subdivision of the STATE OF FLORIDA, hereinafter referred to as the "County".

**WITNESSETH**

WHEREAS, both parties herein wish to facilitate the construction of a road improvement project in MIAMI-DADE COUNTY, hereinafter referred to as the "Project" described as follows:

The reconstruction of NE 2 Avenue between NE 91 Street and NE 105 Street, with drainage modifications, curb and gutters, resurfacing, pavement markings, signage, sidewalks, signalization, street lighting, and landscaping.

WHEREAS, the Village has requested and will provide funding for Project elements beyond those normally associated with the standard reconstruction of a County roadway, consisting of decorative street lighting, banner arms on poles, wider sidewalks with decorative coloring, concrete pavers on sidewalks and crosswalks and header curbs for crosswalks, benches, trash receptacles, enhanced landscaping, and an irrigation system, hereinafter referred to as the "Streetscape Elements"; and

WHEREAS, the parties further wish to designate the maintenance responsibilities to be assumed upon the completion of the Project;

NOW, THEREFORE, in consideration of the promises and covenants contained herein, the parties agree:

**Section 1. Permits and Approvals:** The County shall identify and obtain all necessary permits, and utility adjustments for the Project in accordance with applicable State, Federal and Local Laws and ordinances.

**Section 2. Construction:** The County shall procure the services of a licensed contractor holding an engineering contractor's license to construct the Project. The County may award the contract through any available lawful means which, in the County's discretion, affords the most competitive price for construction of the Project and which may include, but is not limited to, bid solicitation, request for proposals, the award of a change order on existing County contract(s), or the extension of unit-prices provided in connection with prior competitive bid awards. Regardless of which methodology is used, the County will bid the Project in such a manner as to provide unit pricing on the items the Village is responsible for payment of, so that the Village staff will be able to independently verify and price out work completed by the contractor. The County shall at all times maintain separate accounting for the costs of the Project so that costs associated with the items the Village is responsible for payment of may be verified and audited by the Village, at the request and cost of the Village. The construction contract shall

contain a contingency amount to address unforeseen site conditions and other required changes which shall not exceed ten percent (10%) of the base amount of the contract. Subsequent to the evaluation of bids or proposals by the County and the County's determination of the most advantageous bid or proposal, the County shall provide said evaluation to the Village Manager for approval. Failure of the Village to respond, in writing, to the County's evaluation within thirty (30) days shall be automatically deemed an approval by the Village, without the necessity of future action by the Village. Final commitment of Village funds for the Project shall occur upon approval award recommendation by the Village Manager. Subsequent to contract award, any proposed change orders and Supplemental Agreements related to the Streetscape Elements must be approved by the Village in writing prior to execution by the County.

**Section 3. Village Payments of Project Costs:** The Village shall disburse to the County funds for its share of the construction and inspection of the Streetscape Elements in the manner set forth in this Section. Payments by the Village to the County shall be based upon monthly County invoices with certified copies of paid contractor invoices/statements estimates attached. The County will provide an itemized description of the work done, and where appropriate, units supplied, together with the appropriate contract price for such work.

For the purposes of this agreement, the projects elements defined as the Streetscape Elements shall have their costs divided by the County and the Village as specified below:

<u>Element</u>	<u>County Cost Commitment</u>	<u>Village Cost Commitment</u>
Decorative street lighting	Costs for construction of standard street lighting, including the costs of standard street lighting fixtures and installation costs	Construction and installation costs, above the standard cost, for the enhanced street lighting, including incremental additional costs of proposed decorative lighting fixtures over and above standard costs
Banner arms on poles	None	All construction and installation costs
Wider sidewalks with decorative coloring	Standard sidewalk costs	Construction and installation costs, above the standard cost, for wider sidewalks with decorative color
Concrete pavers for sidewalks, crosswalks and header curbs for crosswalk	None	All construction and installation costs
Benches	None	All construction and installation costs
Trash receptacles	None	All construction and installation costs
Landscaping	Costs for standard tree planting and sodding	Construction and installation costs of the enhanced landscaping that is above the standard cost of non-enhanced landscaping
Irrigation system	None	Construction and installation costs of the entire irrigation system

The Village will contribute funds for the cost of constructing the aforementioned Streetscape Elements in a total amount not to exceed \$1,500,000. The Village shall not be liable for any cost, expense or fee in excess of \$1,500,000 except as provided in Section 4 of this Agreement. The Village's design consultant shall be made available to the County at no expense to the County to review shop drawings and perform required post-design services related to Streetscape Elements.

**Section 4. Project Cost Adjustments:** The parties recognize that adjustments to Project costs may be required in the future and that at the option of the parties, amendments may be entered into to revise the funds available for the Project. Provided that there is no increase in the amount of County funds required, such amendments may be executed by the Village Manager and the County Mayor or his designee without the need for approval by the Village and County Commissions.

**Section 5. Construction Administration and Inspection:** The County shall exercise all responsibilities of the owner under the construction contract, including construction administration and inspections. The County may delegate this function to an authorized agent or Construction Engineering Inspection (CEI) consultant; in either case the County will ensure compliance to any applicable building codes, construction standards, County rules or regulations governing projects of this nature, or any other rule of law in effect that governs this Project. The Village shall have the right to approve the quality and workmanship of the

Streetscape Elements to ensure that a high quality standard is provided to the citizens of the Village. In the case of a disagreement over the interpretation of the plans, the County's Public Works Director, or their representative, shall have final authority subsequent to an independent final inspection by the Village. The Village's and the County's designated representatives shall jointly perform the inspection of the Project which immediately precedes substantial completion. Final payment by the Village and obligation of maintenance responsibility to the parties shall be subject to the final acceptance of the Project by the County Public Works Director or designee. The County shall certify upon completion that the Project has been constructed pursuant to the design plans, specifications and approved change orders.

**Section 6. Audit:** The County agrees to permit the Village's auditors or agents to inspect the books, records and accounts of the Project for three years after completion of the Project. These records shall be made available to the Village for inspection within five (5) working days upon written receipt of a written request from the Village. Audits shall be conducted at the Village's cost and expense.

**Section 7. Indemnification:** To the extent authorized by Florida law, the Village hereby agrees to indemnify, defend, save and hold harmless the County to the extent of all the limitations included with section 768.28, Florida Statutes, from all claims, demands, liabilities and suits of any nature whatsoever arising out of, because of or due to the breach of this Agreement by the Village, its
